

Brillion

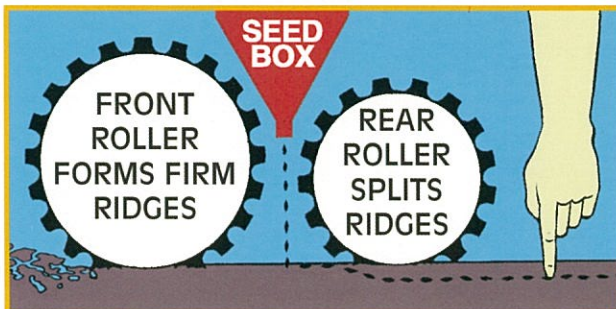

Landscape Seeder

The new LSP Landscape Seeder is the latest addition to the Brillion lineup of landscape/turfmaker seeders. The new design brings 5 & 6 foot sizes to the traditional Turfmaker Series of seeders. With its single landscape style box that is equipped with the polyethylene blade type agitator, this unit will be able to handle most turf seeds with ease. Built on an all new structural tube mainframe, this seeder provides increased

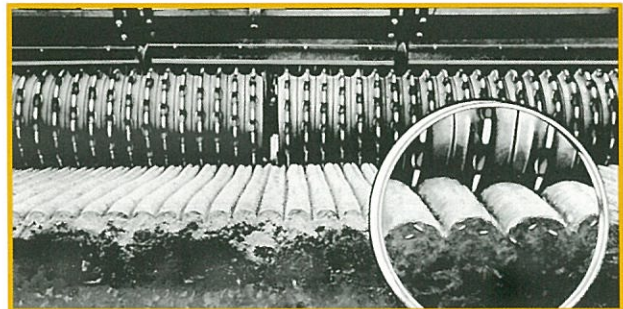

seed box capacity and a simplified roller chain drive system. The traditional seeder roller assemblies have been updated with greaseable, flange style, self aligning bearings. The integral Cat. 1 3-point hitch provides for a close coupled unit that will complement the new generation of compact tractors very well. Wheel track removers are standard equipment.

THE "SURE STAND" METHOD OF SEED PLACEMENT

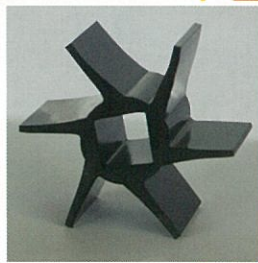

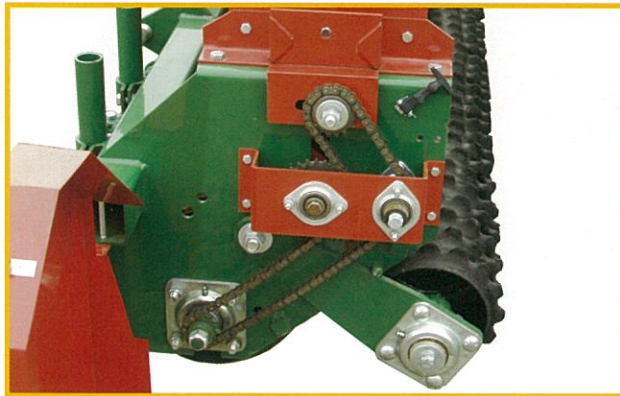

■ Front rollers crush lumps, press down small stones, and form a firm seedbed. Precision seeding devices meter out the seed onto the well prepared seedbed. Rear rollers split the shallow ridges formed by the front rollers and gently firm the soil around the tiny seeds.

■ Notice the perfect seedbed. Each seed is deposited at just the right depth where it will germinate quickly. Notched rollers place most of the seed at a depth of 1/2". Seedbed is left smooth and firm, small stones are pressed down.

Brillion Landscape Seeder

■ The seed box drive mechanism has been updated to utilize an all roller chain drive train with ball bearing idlers that ensure proper chain tensioning. Number 40 roller chain is used throughout to maintain simplicity.

■ The seed box utilizes a newly designed polyethylene blade type agitator to handle the turf and landscape seeds. This new blade agitator is impervious to moisture and is built to provide many acres of reliable seed metering. For specialized requirements, this seed box can be equipped with an optional brush or cage agitator if needed.

SPECIFICATIONS

MODEL	OVERALL WIDTH	OVERALL HEIGHT	SEEDING WIDTH	OPENER SPACING	HOPPER CAPACITY	APPROX. WEIGHT
LSP-5	72"	34"	60"	3"	3-3/4 bu	924 lbs.
