

ROTOBRUSH

THE GKB BRUSHES WERE DESIGNED WITH THE PURPOSE OF BRUSHING ARTIFICIAL TURF FAST AND EASY. BRUSHING ARTIFICIAL TURF IS AN ESSENTIAL PART OF THE WEEKLY MAINTENANCE. BY USING THE GKB BRUSH (BR), QUICK-BRUSH (QB), T-BRUSH (TB) OR ROTOBRUSH (RB) ON YOUR SPORTS FIELD, THE ARTIFICIAL TURF WILL REMAIN IN TOP-CONDITION.

THE ROTOBRUSH IS SPECIALLY DESIGNED TO BRUSH THE EDGES OF ARTIFICIAL GRASS, WHERE MOSS AND THE GROWTH OF ALGAE ARE A WELL-KNOWN PROBLEM.

REGULARLY BRUSHING FIELDS PREVENTS IMPAIRED DRAINAGE, DETERIORATING TECHNICAL CHARACTERISTICS BY HARDENING AND THE IMAGE OF A POLLUTED FIELD. THE BRUSHED FIELDS WILL HAVE THE SAME APPEARANCE AS ON THE DAY OF COMMISSIONING.

ROTOBRUSH

RB-040

- WORKING WIDTH: \varnothing 0,4 MTR
- DIMENSION WORKING/TRANSPORT: 0,7x1,5x0,7 MTR / 0,6x1,2x0,7 MTR (LXWXH)
- WEIGHT: 40 KG
- POWERCONSUMPTION: 15-35 HP
- LINKAGE: STANDARD 3 PUNT CAT I-II
